

Conexus Interns Goes Statewide

- By 2018, the Conexus Interns Program will be implemented statewide
- Over 150 companies will be participating and hosting interns from around the state
- Over 500 students per year will be placed in advanced manufacturing and/or logistics internships
- Job placement programs will be in place to help students be the most successful
- Engagement with local and state universities will be a key factor in the growth of this program
- Indiana will be among the top in technical/vocational programs with the combination of Conexus Interns and the Hire Technology Curriculum
